Over ThiemeMeulenhoff

ThiemeMeulenhoff ontwikkelt zich van educatieve uitgeverij tot een learning design company. We brengen content, leerontwerp en technologie samen. Met onze groeiende expertise, ervaring en leeroplossingen zijn we een partner voor scholen bij het vernieuwen en verbeteren van onderwijs. Zo kunnen we samen beter recht doen aan de verschillen tussen lerenden en scholen en ervoor zorgen dat leren steeds persoonlijker, effectiever en efficiënter wordt.

Samen leren vernieuwen.

Dit betekent dat de bosbouw op een verantwoorde wijze heeft plaatsgevonden.

Herhaling is de moeder van het geleerde.

De ervaring leert ons dat deze wijsheid ook op het aanleren van de tafels van toepassing is.

Je schrikt hoe weinig er bij sommige kinderen na de zomervakantie is blijven hangen.

Hoewel dit deeltje bestemd is voor leerlingen die het eerste deel van MIJN TAFELBOEK hebben doorgewerkt, kan het ook heel goed los van het voorgaande deel worden gebruikt.

Het geeft een grondige herhaling en een uitbreiding van wat in het eerste deeltje is geleerd (ook de correlatie van de tafels komt weer aan de orde).

Omdat deze toch zo noodzakelijke oefeningen vaak als saai worden ervaren, heb ik getracht zoveel mogelijk afwisseling aan te brengen in de opdrachten. Zo vindt u in dit deeltje zeer veel ‘tafel-puzzels’. De leerlingen kunnen aan het ontstaan van een bepaald mozaïek zelf controleren of de sommen goed zijn.

De bedoeling van de tafeltabel (blz. 5) is de volgende: Als een leerling een tafel goed van buiten kent, zegt hij (zij) die tafel op bij de leerkracht. Deze zet zijn paraaf dan op de aangegeven plaats. Kan de leerling ook de antwoorden alleen uit het hoofd opzeggen, dan krijgt hij ook daarvoor een paraaf. Het is gebleken dat dit de leerlingen aanmoedigt zo snel mogelijk alle tafels goed onder de knie te krijgen.
